LATEST NEWS BY WIRE.

A special from Caen, the noted
summer resort on the Lower St.
Lawrence, says: The steamer Cana-
da of the Richelieu and Ontario Nav-
igation company, struck on a reef off
Paisley Island three miles out from
there. A dense fog was prevailing at
the time, and as the tide was receding
the steamer could not be got off and is
now high and dry on the rocks. All
passengers, about fifty in number,
among whom were a few American
tourists, were landed in safety by row
boats and taken to the St. Lawrence
Hall, Caenona. Unless a storm in-
tervenes the stranded steamer will
likely be got off without much damage.

During the fetes in the mining dis-
trict of Ariche, to celebrate the jubilee
of M. Vuillemin, manager of the
Aniche Colliery company, an anar-
chist named Decoux, in the crowd,
fired five revolver shots at M. Vuil-
lemin, while he was leaving the church.
Three of them took effect, though the
wounds they inflicted were not seri-
ous. Directly afterwards an enor-
mous explosion was heard and De-
coux's body was hurled several yards,
while ten of the by-standers were
thrown to the floor, injured by the
explosion. Decoux's father rushed
upon the prostrate body of his son and
kicked him, exclaiming, "Canaille,
assassin." Decoux had been carrying
a bomb beneath his coat which was
prematurely exploded. Decoux was
disembowelled and terribly mutilated.
He was dismissed from the Colliery
after a strike in 1893.

The Pennsylvania Bolt and Nut
company have notified the employees
in the puddle and rolling mills that
their wages are increased ten per cent.
the order to go into effect on August
16. This is the second increase of
ten per cent. within a month, and the
puddlers will now receive \$3 per ton.

SUICIDE OF SOLDIERS.

Startling Facts Regarding European Ar-
mies—Effects of High Discipline.

Dr. Longer, who was appointed at the
late international medical convention
of London to report about the number
of suicides among soldiers of various
nationalities, published the results of
his investigations. From the doctor's
report, based upon the military statis-
tics from 1875 to 1887, it appears that the
largest number of suicides occurred in
the Austrian army, averaging every
year 120 to every 10,000 soldiers. This
does not include forty cases of failed at-
tempts at suicide, and it represents 20
per cent. of the general mortality
among the Austrian soldiers.

Next to Austria is Germany, which
from 1875 to 1887 averaged sixty-three
to every 10,000 soldiers, not counting
ten cases of unsuccessful attempts at
self-destruction. In the Italian army
from 1874 to 1889, on the average, forty
soldiers in every 10,000 committed sui-
cide every year. The French army
from 1872 to 1889 lost in Europe twenty-
nine soldiers to every 10,000 annually,
and in Algeria it lost just twice as many
by suicide. In Belgium there occurred
twenty-four, in England twenty-three,
in Russia twenty, and in Spain four-
teen soldiers to every 10,000 committed
suicide.

In previous years in England the
greatest number of suicides occurred
among old soldiers, but since the condi-
tions of the service were changed the
number of young suicides increased in
the army. In France, Italy, Germany
and Austria most of the suicides are
young soldiers; in Austria especially
mostly recruits commit suicide in the
in the first few months of their joining
the army.

Soldiers serving a term of imprison-
ment seldom commit self-destruction,
but they commit it mostly when other
disciplinary measures are applied to them.

The preferred means of suicide is,
among the foot soldiers, the use of fire-
arms, while cavalrymen in most cases
use the noose or cut their throats. The
suicides using firearms for their pur-
pose generally shoot themselves in the
head. The native Algerians form an
exception to this rule, because disfigur-
ing the head is considered a great sin
among the Arabs. They direct the ball
to the heart. In the summer season
suicide by drowning occurs very often
among the soldiers.

The cause of suicide in the army is,
in most cases, fear of punishment, but
in the Austrian and Russian armies
aversion to the military service or rude
treatment provokes many soldiers to
self-destruction.

LITTLE BOOKS.—Cotton Mather said
that since he had given away many
little books God had given to him
many great books. Great books have
their value, but little books are far
more important for common use; and
while students may need the great
books, the people need the little ones.

Busy men and women have no time
for long stories. All the books of the
Bible, as written, were little books.

Thousands of people who cannot read
large volumes would gladly read brief
pointed tracts and pamphlets. Per-
sons interested in scattering "small
books on great subjects," will do well
to examine the different numbers of
the Anti-Infidel Library, published by
H. L. HASTINGS, 47 Cornhill, Boston.

Most of them are 5 or 10 cents pam-
phlets, in readable type, but so packed
with facts that they contain as much
information as one would often find
in a book costing a dollar. The cir-
culation of some of these publications
has been enormous, nearly sixty tons
of a single one of these little tracts
having been printed. We do not often
see "third million" on the title of any
publication, but persons who are curi-
ous can find it by sending five cents to
H. L. HASTINGS, Boston, Mass., for
a copy of the pamphlet "Will the Old
Book Stand?" or by sending twenty-
five cents for an assorted package of
its Anti-Infidel tracts.

Waghorn's Guide for August ap-
pears to-day, bearing the latest chang-
es in time cards of travel by rail,

business tables. With the inexperi-
enced many assume that unless they
hear of a new time card on say the
C.P.R., there is little or no change to
concern them, but the extensive range
of information embodied in the Guide
outside of purely local train service is
subject to constant and important
additions and alterations, which when
you want quickly, and above all cor-
rect. This the Guide supplies in an
unequalled manner.

PRINCE ALBERT, AUG. 13, 1895

The Territorial Exhibition held at Regina was a great success in every sense of the word. Those who had the opportunity of seeing the one held at Winnipeg and the one held at Regina, say that without doubt the Territorial Exhibition was the best of the two. We are pleased to learn this, as we trust it will be the means of giving strangers a good idea of the resources of our great country. It wanted something of the kind to impress upon these unacquainted with the country its suitability for the intending settler, and we are glad that the exhibition did not fail in this great purpose. Among other things it is pleasing to note that Prince Albert district made a good showing, if we may judge by the number of prizes carried off by our people who exhibited there. We trust that this exhibition will leave a good impression upon the minds of those outsiders who visited these Territories for the first time, by showing them that we have a country here almost equal to any part of the Dominion and only wants the right kind of people to make it blossom as a rose. Like any other new country we have had considerable difficulties to contend with on account chiefly of the want of proper transportation facilities, and we seem to be very long in getting into proper shape in that respect, as the present means of transportation we have makes us pay pretty dearly for the accommodation, but all things are possible to those who wait, and by long waiting something may turn up for us yet. Meanwhile we feel thankful that we are not going back wards, we are slowly improving, and thanks to Lieut. Governor Macdonald, we trust that this Exhibition will give us a greater impetus towards developing this country and opening up its resources for the benefit of mankind in general and our fellow citizens in particular.

The English Divorce court is blocked with business, coming chiefly from the middle and lower classes. The masses have their necessities as well as the classes, though not so much is heard about it. Scandal becomes piquant only when it strikes a good man.

A good many papers seem to be anxious that the Government's remedial order addressed to the Manitoba authorities should be withdrawn. They do not, however, seem to be animated either by regard for the Government or a desire that the Manitoba Catholics should be accorded the educational privileges they desire. They are under suspicion.

Crispien has been again telling the Italian Parliament that all the statesmen of Europe desire peace. All European statesmen do this at regular intervals; but none of them venture to propose a reduction of their armed forces. This is why the war cloud is so ready to loom whenever an extra courageous Turkish ruffian or Bulgarian assassin indulges in a deed of blood.

The report of the director-general of the World's Columbian exposition at Chicago has been issued. It covers 3,500 pages of printed and type written matter and has an appendix of 2,400 octavo pages of a catalogue. The only omission appears to be the official explanation of how nearly two years have been allowed to elapse since the closing of the fair without the successful exhibitors receiving their awards.

Gen. Greely says, in justification of Arctic exploration that within a period of a little more than two centuries the Arctic regions have furnished the world with products valued at over twelve million dollars. The products, however, were brought out by whalers and fishermen. The explorers took no more than they brought back. The thousands of the Polar explorers have generally been paid in kind more than in money.

Despite the divisions in the parliamentary party the elections have resulted in the return of a larger number of Home Rulers in Ireland than at the last Parliament. In some cases the nominee of the parliamentary party was ignominiously rejected and another Home Ruler chosen by a handsome majority. If the patriotism of the M.P.'s was equal to that of the Irish electorate Lord Salisbury's government would have a harder task before it than at present appears to confront it.

It is said that Mr. Laurier will be present at some time in the near future when he will deliver a very important speech on the political situation. He will be accompanied by several Liberal orators. While giving Mr. Laurier due credit for his earnestness as also for his ability, we would fain hope that this promised brilliant speech will be brought down to the average intelligence of his hearers, so that one would have a fair idea of what the gentleman wishes to get at. His speeches on his Northwestern tour were brilliant enough and the peculiarities and shortcomings of the Conservative were set forth in bold relief; but when he came to define the Liberal policy or platform his difficulties were about as clear as mud, or as hazy as a fog on the banks of Newfoundland. Things are seemingly in a misty state at present and we do hope that Laurier or some other genius will arise and show us exactly where we are and what course we pursue.

While the Regina Exhibition unmis- takably shows the grand and fertile country we possess here, and that in order to raise it to a level with other parts of the Dominion, it only wants better railway facilities to assist the intending emigrant coming in here as well as to take away our surplus. But such is the inherent jealousy or the want of sympathy of the powers that be we are left out in the cold in that respect. The Hudson's Bay Railway, which we fondly hoped would receive some state assistance has been shelved with the consent of both parties in the House and we are left as we were the victims of an avaricious monopoly. This monopoly not satisfied with grinding the last cent out of our pockets must needs have something more, knowing that they need only ask and they will receive. We are informed that an order-in-council has just been passed granting the C.P.R. an additional subsidy of \$100,000 a year. This action of the Dominion government is no doubt Scriptural as we are told in the good book that to him that hath shall be given and from him that hath shall be taken away even that which he hath. This is exactly how things are conducted so far as we are concerned in railway matters, but at the same time we can not help thinking that there is a screw loose somewhere in our public machinery causing considerable friction or grumbling which is about the same thing.

Great slaughter sale of wall paper at Geo. W. Baker's at cost.

Several parties left for the north side of the river Saturday and Monday last to cut hay on the different hay claims. The season commenced on Friday, but owing to the prevailing rain stem work could not be gone on with—and all the better for it, as the hay is none too ripe for cutting even now.

Mr. S. Jackson, of the Carrot River district, was in town last week on a business trip, having come in with some cattle to be shipped out. Mr. Jackson thinks his district has not much grounds for complaint as to crop prospects, which he says are all looking well.

A large band of fat cattle, owned by different parties in the Carrot River district, were driven from that point last week, and delivered over to J. Paul, local buyer for Gordon & Ironsides. The price paid, we understand, was two and a half cents per pound live weight. They were shipped out by yesterday morning's train.

If your watch or clock needs repairing, call at Geo. W. Baker's where it will receive immediate attention by a practical man.

The Ven. Archdeacon of Saskatchewan, Rev. Dr. McKay, left last week on a trip through the eastern part of his diocese. The ven. gentleman will be absent about a month.

Ralph Conners, the Moffat freighter, left for home on his return trip Monday. He had his usual good load of supplies on board, but Ralph says his new team are good for anything reasonable.

Mr. R. Stanley is unfortunate in his horse. Last week he had two valuable horses shot, which were condemned as being glandered. They were a fine team and will be a great loss to Mr. Stanley.

Miss Jane McNeill is home after an extended visit amongst her friends in Manitoba.

Read the following from a grateful mother: My little boy had Scarlet Fever when 4 years old, and it left him very weak and with blood poisoned with cancer. His eyes became so inflamed that his sufferings were intense, and for seven weeks he

Could Not Open His Eyes. I took him twice during that time to the Eye and Ear Infirmary on Charles street, but their remedies failed to do him the faintest shadow of good.
